- Figma
- UX Research
- Prototyping
- Material UI/CSS
- Wireframing

FRONTEND

- React
- React Native
- Typescript
- Javascript
- HTML/CSS

SOFTWARE DEV

- Python
- Java
- Node.js
- Webscraping
- DevOps
- C++

PRODUCT MGMT

- Leadership
- Team Collaboration
- Communication
- Critical Thinking
- User Empathy

EXPERIENCES

DevOps Intern Sep-Dec 2024
Land Transport Authority, IT Division
Software Engineer

- Built a web scraping application automating extraction and analysis of embedded links to improve data collection efficiency
- Researched ChatOps integration within DevSecOps framework to enhance collaboration, security and automation across development workflow
- Contributed to building a frontend UI bot builder application, strengthening technical proficiency in software development

Cofounder & Designer 2022-2025
Cetherel
Content Creator | Product Designer

- Co-managed a small business focused on content creation, social media marketing and product designing
- Designed and launched sticker and paper product lines
- Eager to continue learning and developing

PROJECTS

TalkCents - Personal Finance Tracking App
UX Designer | Frontend Developer — iOS Mobile Application

- Led React Native frontend development, building UI components and managing application state
- Integrated APIs for real-time data handling across multimodal inputs: voice, chatbot and camera-based AI
- Focused on responsive, intuitive interface design to reduce user friction in expense logging
- Refine interface through iterative testing to ensure a smooth, user-friendly experience

Hotel Booking Website - Ascenda
Frontend Developer — Web Application

- Designed and implemented structured UI components, navigation flows and dynamic filtering features
- Integrated stripe API to enable secure transactions with a smooth and trustworthy checkout experience
- Worked on frontend logic and API integration ensuring seamless interaction between interface and backend

UPSutd - Mobile Web Application
Frontend Developer | UX Designer — Mobile Web Application

- Developed a mobile web app to improve campus service, focusing on frontend and UI/UX design
- Built responsive layouts, intuitive navigation and search functionality optimised for efficiency
- Refined the interface to ensure a consistent experience
